👤 ABOUT ME

Experienced Frontend Developer with more than 5 years of experience. Proficient in **React**, **Redux**, **JavaScript** (**ES6+**), **HTML5**, and **CSS3**, with a focus on clean, maintainable code and user-centric design. Skilled in optimizing performance, implementing modern testing practices, and collaborating effectively in **Agile** environments.

💼 WORK EXPERIENCE

ConcertAI   JULY/2023 - PRESENT

Software Engineer

- **Digital Trial Solution (DTS) Development:** Played a key role in the creation of DTS, a comprehensive platform designed to streamline and optimize clinical trials within the healthcare and life sciences industry.
- **Test-Driven Development (TDD) Implementation:** Integrated React Testing Library with Jest as the test runner, spearheading the adoption of Test-Driven Development (TDD) practices across the entire project, enhancing code quality and reliability.
- **VEEVA API Integration:** Seamlessly integrated the VEEVA API into the existing DTS platform, enabling users to manage clinical trial data from both EDC and VEEVA within a single module, thus simplifying data management and accessibility.
- **eCRF Flow Contribution:** Contributed significantly to the development of the electronic Case Report Form (eCRF) workflow, including functionalities for saving, submitting, and auditing clinical trial data within EDC, ensuring compliance and data integrity.

Publicis Sapient   May/2021 - July/2023

Associate Technology L2

- **Client Requirement Gathering & Feature Development:** Led the client requirement gathering process and developed new features for Dynamic and Manual Offers, significantly enhancing the readability and customer comprehension of incentives and offers.
- **UI Development:** Engineered sophisticated UI applications using React.js, Redux, JavaScript, and TypeScript, while adhering to a Test-Driven Development (TDD) approach to ensure high-quality and maintainable code.
- **Responsiveness & Web Analytics Integration:** Ensured seamless responsiveness across devices and integrated Adobe Analytics for advanced web analytics, enabling data-driven insights and enhanced user experience.

Infosys   Aug/2019 - May/2021

System Engineer

- **Developed** a comprehensive enterprise application for tracking and managing the lifecycle of iOS devices, facilitating seamless access to device details from manufacturing through to customer sales.
- **Translated** intricate designs and wireframes into high-quality, responsive code using React.js workflows.
